# Next Generation

In the frame the “**NEXT GENERATION**” project, a prize will be given to students/students of art academies and university programs for visual arts.

The “**NEXT GENERATION Prize**” will be awarded with the aim of recognizing young artists who, with their work, demonstrate the in-depth quality of the development of artistic production, a meaningful and well-founded message value, and the contribution of authentic and modern approaches to artistic engagement.

The award-winning student/artist/collective represents the institution and the mentor/mentors of the academy from which it originates and serves as the starting point of the, artistic research and involvement in the cultural, educational and artistic context.

The award is given in a form of a recognition (diploma) and presented to the public in the frame of the conference proceedings **NEW HORIZONS: GENERATIONS, ART AND TOPICS OF THE FUTURE**, which will be published in the second half of 2023.
